PROFESSIONAL SUMMARY

Informatics Student at Sanata Dharma University with a solid background in data technologies and community leadership. Proven experience as a Google Cloud Arcade Facilitator 2026, with a strong passion for tech education, cloud computing, and AI pipeline development.

WORK EXPERIENCE

Google Cloud Arcade 2026 (Organized by Google Cloud & Dicoding) - Remote **Jul 2026 - Sep 2026**

Community Facilitator

- **Cohort Management:** Selected to lead and facilitate a national cohort of 100+ learners, ensuring a seamless onboarding and learning experience throughout the Google Cloud Arcade 2026 program.
- **Technical Mentorship:** Provided daily hands-on technical support and troubleshooting for participants navigating challenges within Google Cloud Platform (GCP) labs, AI/ML,and Data Engineering pathways.
- **Progress Tracking :** Maintained high completion rates through active mentoring, continuous feedback loops, and peer-to-peer motivation techniques within the communication channels.

Codero- Yogyakarta **Jul 2026 - Present**

Part-time Coding & Robotics Instructor

- **Curriculum Delivery & Instruction:** Delivered interactive programming lessons utilizing Scratch, Pictoblox, and Python to older students, simplifying complex computational concepts into engaging learning materials.
- **Early Childhood STEM Education:** Taught foundational robotics and logic to early learners (ages 3-5) using tangible programming tools like Matatalab (Talebot Pro), traditional Lego, UKit, and Jimu robots.
- **Technical Mentorship & Assessment:** Guided students of varying age groups through hands-on projects, evaluating individual progress and providing personalized feedback to enhance their logical reasoning and problem-solving skills.
- **Classroom Management:** Fostered a collaborative and adaptive learning environment, ensuring active student participation and delivering real-time technical troubleshooting during practical sessions

CV. Yoga Solusi Intiprima - Bekasi **Apr 2023 – Jun 2023**

IT Support Intern

- **System & Quality Assurance:** Conducted routine maintenance across 3 work units to make sure all computer systems and networks met daily operational standards.
- **Technical Troubleshooting & Research:** Diagnosed hardware and software issues on the fly, researching technical solutions independently to get systems back up and running with minimal downtime.
- **Data & Technical Administration:** Kept a clean, highly detailed digital inventory of company tech assets using office software.

PROJECTS

SAKTI (Kanisius Integrated Admission System) Web Application **2026**

Systems Analyst & Developer | Tech Stack: PHP, Laravel, SQL

- **System Analysis & Requirements Evaluation:** Conducted structural evaluations and data flow mapping using PIECES frameworks to address operational errors in physical, paper-based student admission processes.
- **Data Validation & E-Form Layout Design:** Designed dynamic web-based electronic forms incorporating rigorous input validation mechanics to maintain high data accuracy and prevent user submission errors.
- **Quality Assurance & Feature Verification:** Formulated system use cases, core workflows, and verified functional module outcomes (Smart Upload & Status Tracker features) to ensure clean, structured data storage.

EDUCATION

Sanata Dharma University, Yogyakarta | Bachelor of Informatics **Aug 2024 – Present**

SMK Telekomunikasi Tunas Harapan, Salatiga | Software Engineering Major **Jul 2021 – May 2024**

- Graduated with a GPA of 86.45/100.00.

ORGANIZATIONAL EXPERIENCE

Informatics Sports and Arts Week 2025 - Sanata Dharma University **Jan 2025 – Apr 2025**

Head of Publication, Design, and Documentation Team

- **Workflow & Deadline Management:** Coordinated daily tasks and streamlined the creative pipeline to make sure all event promotional content was published accurate and right on schedule.
- **Content Evaluation & Quality Control:** Reviewed and filtered all design assets and copy, keeping the creative outputs strictly aligned with event guidelines and quality benchmarks.
- **Cross-Functional Coordination:** Acted as the main bridge between divisions to sync design needs with the event's bigger operational timeline.

Informatics Student Association - Sanata Dharma University **Dec 2024 – Dec 2025**

Staff of Media, Communication, and Information Division

- **Content Moderation & Information Production:** Fact-checked, processed, and designed data-driven visuals like infographics and official reports for campus media.
- **Trend & Pop Culture Research:** Tracked daily social media trends and local news to keep organizational updates engaging, relevant, and well-tailored to the student community.

CORE COMPETENCIES & CERTIFICATIONS

- **National Professional Certification (BNSP):** Licensed Junior Computer Operator, showing high efficiency in daily digital administration and data processing accuracy.
- **English Proficiency (TOEIC):** Strong professional command of English, which makes it easy for me to digest massive instruction guidelines and write clear, logical rationale/feedback.
- **Online Research & Analytical Thinking:** Backed by an informatics background, I am skilled at using search engines, browsers, and verification tools to double-check the accuracy of digital information.
- **Attention to Detail & Guideline Adherence:** A sharp eye for spotting inconsistencies or odd edge cases in data, with a proven ability to work independently without needing constant supervision.
- **Local Cultural Nuance:** Born and raised in Indonesia, giving me a deep, natural understanding of local pop culture, business trends, sports, and media dynamics.
- **Creative Project Management:** Experienced in scriptwriting and layout evaluation, which trained me to think both logically and creatively under tight deadlines.
